The North Carolina Department of Transportation uses Small Business Administration (SBA) size standards to determine whether a business entity is small and, thus, eligible for participation in the SPEF program. Size standards have been established for Professional, Scientific, and Technical Services under the North American Industry Classification System (NAICS). The size standards are expressed either in number of employees or annual receipts in millions of dollars, and indicates the maximum allowed for a business and its affiliates to be considered small.

Please select the NAICS code for your industry by placing a check in the box. Verify your firm's average receipts for the three previous tax years before submitting this form. *Receipts* means "total income" (or in the case of a sole proprietorship, "gross income") plus "cost of goods sold" as these terms are defined and reported on Internal Revenue Service tax return forms.
